Portfolio: portfolio-chi-murex-q1puglpq8z.vercel.app

SUMMARY

Bachelor of Science in Information Technology graduate with hands-on experience developing, troubleshooting, and deploying full-stack web applications. Skilled in React.js, Laravel, JavaScript, PostgreSQL, MySQL, Supabase, REST APIs, authentication, and responsive web development. Experienced in database security, Git-based workflows, system troubleshooting, and deployment.

PROJECT EXPERIENCE

2025 - Present

- Designed and developed full-stack web applications using modern frontend frameworks, backend technologies, and database systems.
 - Implemented authentication, authorization, database security, API integration, and responsive user interfaces.
 - Managed development workflows using Git, GitHub, and cloud deployment platforms.
 - Performed debugging, testing, and technical improvements throughout the development lifecycle.
-

PROJECTS

NorzaMart — E-Commerce Marketplace

2026 - Present

Next.js | React | TypeScript | MongoDB | NextAuth.js | Cloudinary | Tailwind CSS

- Developed a full-stack hyperlocal e-commerce marketplace using Next.js, MongoDB, NextAuth.js, and Cloudinary.
- Designed application schemas, authentication workflows, product management features, and marketplace-related user flows.
- Implemented payment verification workflows, media uploads, and responsive dashboard interfaces.
- Improved application security by identifying and resolving authentication, authorization, upload validation, and database consistency issues.

MotoRent – Motorcycle Rental & Booking Web Application

2025-2026

React.js | Supabase | PostgreSQL | RLS | Vercel

- Developed a responsive full-stack motorcycle rental platform supporting vehicle browsing, client verification, and online booking workflows.
- Implemented Supabase authentication and PostgreSQL Row-Level Security policies to protect user and transactional data.
- Integrated database-driven downpayment and remaining-balance tracking with synchronized rental and vehicle availability records.
- Deployed and troubleshooted the application using GitHub and Vercel.

Scholarship Distribution System

2024-2025

Laravel | PHP | TypeScript | MySQL | Composer | NPM

- Configured and deployed a full-stack Laravel application by managing Composer and NPM dependencies and local file storage.
- Improved development environment compatibility through PHP configuration and server-extension troubleshooting.
- Developed automated batch scripts to simplify local server startup and deployment testing.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript (ES6+), React.js, Next.js, Tailwind CSS, TypeScript

Backend: Laravel, PHP, REST APIs, User Authentication

Databases: PostgreSQL, MySQL, Supabase

Security: Row-Level Security (RLS), Authentication, Access Control

Development Tools: Git, GitHub, Composer, NPM, Vercel, ChatGPT, Claude

EDUCATION

Bachelor of Science in Information Technology

2020 - 2026

Our Lady of Fatima University
